

THE HALL OF FAME

Vote to Be Taken This Summer for Site of Edifice.

WOMEN WILL BE INCLUDED

There Are Forty-Two Vacancies in the Nich of the Edifice of the Great Hall of Fame That Are to Be Filled by a Special Election This Year.

New York, April 11.—Chancellor H. M. McCracken of the University of New York has announced the personnel of the board of electors which will during the summer vote upon additional names of famous Americans for places in the hall of fame. There are 52 niches in the unique edifice now awaiting to be filled. Of these vacancies 26 are to be filled with the names of native born Americans, six by Americans born on foreign soil and ten by illustrious women of this country. The voting will be conducted by mail, the names in nomination being sent out May 15, the balloting to close October 1. The first class on the list of electors is made up of university or college presidents and includes Chaplain of Washington and Jordan of Leland Stanford.

Another class is made up of professors of history, and scientists. It includes F. W. Blackmar of Kansas and C. Duniway of Leland Stanford.

The third class consists of publicists, writers, and authors, and includes Senator Beveridge, William J. Bryan, Grover Cleveland, Vice President Fairbanks and Mary Hallöck Foote of Grassvalley, Cal.

The last list consists of chief justices, and there are many changes in it because in many of the states the terms of the chief justice of the highest court are very short. Among the new chief justices on the board are W. H. Gabbert, Colorado, and C. O. Stockslager, Idaho.

Of the chief justices who hold over on the list are G. W. Barth, Utah; T. W. Brantley, Montana, and C. E. Wolverton, Oregon.

As at present made up there are 101 names on the list, but the chief justices of Nevada, Wyoming and West Virginia, to whom invitations have been sent, are yet to be heard from. If the three accept there will be 104 members of the board, and it will take the affirmative votes of at least 53 to put a name in the hall of fame. It is required that there must be at least 100 electors, but the maximum number is not fixed.

MAN AND MONEY.

Arrest of a Notorious Russian Swindler in New York.

New York, April 11.—"Prince" Savine, who was arrested at Bremen Saturday at the request of the Russian consul, has, says a Herald dispatch from Berlin, been conveyed to the frontier and turned over to the Russian authorities, as was also the sum of \$50,000 which he had in his possession.

A statement made by Savine in a newspaper interview after his arrest, contains several allusions recalling the career (although not positively identifying him) of Nicholas E. Savine, who, under various aliases, among them Count of Toulouse-Lautrec, attained an international reputation as a swindler. Once he came within striking distance of procuring the throne of Bulgaria.

Savine is a native of Russia and escaped from Siberia, where he had been sent on charges of forgery. After serving a year in prison he was released and departed for Europe.

After many adventures he was arrested in Chicago in 1900, charged with forgery.

TEMPERANCE TOWN.

No Saloons Can Be Opened in Town of St. Johns.

St. Johns, April 11.—Although there have been 255 applications filed with the city officials of St. Johns for saloon licenses since the recent city election, it is doubtful if there can be any saloons established in the little city for at least the next two years.

This is the opinion of those interested in the matter who have followed the recent decision of Judge McBride in the Forest Grove case, where the court held that the city council had no right to grant saloon licenses under its charter, and that the privilege to allow saloons to operate would have to be withheld until the legislature changes the city charter.

The St. Johns charter is substantially the same as that of Forest Grove in this particular, giving the council power to regulate saloons, but not granting the right to license them in the first place.

Mayor King, of St. Johns, has told the applicants for saloon licenses that he will leave the question of saloons to a vote of the people of the munici-

ality, but it is doubted if saloons can be started even then. Seven applications for licenses came from residents of St. Johns, while the remaining number of the total of 25 came from Portlanders.

CAN BOARD CANCEL DEEDS?

Interesting Law Point Concerning Title to State Lands.

Salem, Or., April 11.—The question of whether the state land board has authority to cancel certificates of sale and deeds to state school lands in which fraud appears upon the face of the application came up directly before the board this morning when James K. Sears made application for the purchase of 320 acres of timber land in this county, sold as school land to Fred Palmer of this city, March 14, 1901.

In the application Sears alleges that he believes the application by Palmer was fraudulent in that he did not purchase the land for his own use and that the certificate of sale was assigned to W. D. Mohnney, who is said to have furnished money for the first payment.

The question whether the board has power to cancel certificate cases of this kind has been submitted by the governor to the attorney general, who will render an opinion in a few days. In case the attorney general concludes the board is vested with this power, the governor is prepared to demand the cancelling of a large list of certificates and deeds, aggregating over 500,000 acres.

DAMAGED BY FIRE

Lightning Struck Warehouse Causing Conflagration.

LOSS ESTIMATED AT \$200,000

Ladle Bros.' Warehouse at Huntington and the United States Stogie Co. Plant and Three Other Buildings Devoured by the Flames.

Huntington, W. Va., April 11.—A fire started by lightning striking the Ladle Bros.' large warehouse early this morning, caused damage estimated at \$200,000. Before the firemen were on the ground the adjoining warehouse of the United States Stogie Company were in flames. Three other buildings were also consumed. The firemen at this hour (4 a. m.) have the flames well under control.

The United States Stogie Company's building is situated on Third street.

The losses so far as can be ascertained are as follows: Ladle Bros., \$30,000 on building and \$70,000 on the stock; United States Stogie Company, \$7000 on building and \$60,000 on stock; Paudke Paper Company, building \$40,000; Cramer Company's machine shops \$4000; Brown Bros. coal office \$4000.

It is not known at this time what insurance is carried on the building or stock.

The Baltimore & Ohio railroad freight depot, with its contents, was damaged to the extent of \$50,000.

The fire started at about 2 o'clock and owing to a high wind and the storm, the firemen had a desperate struggle.

NOTORIOUS PIRATE

Bones of Captain Hicks Are Discovered on Bedloe Island.

CE WAS HUNG FOR PIRACY

Captain Hicks and His Fleet Cruised Around Carolina Coast Preying on New York Shippers, But Was Finally Captured and Convicted.

New York, April 11.—The bones of Captain Hicks, a notorious pirate, are believed to have been unearthed on Bedloe's island. While digging for a foundation for several new buildings a laborer threw up in a shovel of earth a brittle object that resembled a human thigh bone. An almost perfect skeleton finally was collected from the position of the skeleton it could be seen that the arms and legs were pinned close together at the time of the burial, which led to the suggestion that the skeleton of the pirate captain had been unearthed.

Then one of the laborers turned up a semi-petrified section of a wooden gibbet it became almost certain that the bones were those of the pirate.

Captain Hicks, with his fleet, cruised around the Carolina coast, venturing sometimes as far north as Long Island, preying on New York shippers but he was finally captured, brought to New York, convicted and sentenced to be hanged on Bedloe island. The execution was published and the island was crowded at the time.

NIP IT IN THE BUD.

First Appearance of Dandruff a Forerunner of Future Baldness.

That such is the case has been conclusively proven by scientific research. Prof. Unna, the noted European skin specialist, declares that dandruff is the burrowed-up cuticle of the scalp, caused by parasites destroying the vitality in the hair bulb. The hair becomes lifeless, and, in time, falls out. This can be prevented.

Newbro's Herpicide kills this dandruff germ, and restores the hair to its natural softness and abundance.

Herpicide is now used by thousands of people—all satisfied that it is the most wonderful hair preparation on the market to-day.
